I Grow the Best — Discard the Rest

Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1950. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll Certificate Winners or has proven with us to be truly outstanding. Not only that, but the varieties offered are reliable in every respect, good growers, fine producers, insect resisting foliage and most of them are of large size blooms, and true prize winners. If you are interested in large size dahlias, you surely are not going wrong by ordering from us. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. You are under no obligation to buy, but welcomed and I will be as happy to see you as you will be to see this magnificent collection of gorgeous massive flowers in all of the colors, shades, and tints of the rainbow.

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sales as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

DAHLIAS: WHAT IS KNOWN ABOUT THEM

By: MORGAN T. RILEY

A NEW BOOK ON DAHLIA CULTURE

Publisher: Orange Judd Publishing Co.

Read what the critics say:

This is an ambitious title but the author covers the subject thoroughly in a masterful style.—Gardeners' Chronicle of America.

This book will be a useful guide to both professional and amateur grower, as it is written simply and directly, with a thorough knowledge of the subject.—Florists' Review.

Here is contained a most comprehensive history of the dahlia, replete with pictures from early publications, tracing the history of this exotic flower from its first findings in Mexico through its introduction into Europe and eventually to the United States.—New York Herald-Tribune.

The chapter on culture is most complete and covers all the aspects that any grower will look for. Here are all the details all growers need.

Mr. Riley gives some very important pointers on the care of plants and cut blooms that are to go to the show table. All the necessary suggestions that will help the grower to win blue ribbons are set forth in detail.—New York Herald-Tribune.

I have never read a more sensible book on the growing of one genus.—Golden Gardens. The entire volume is highly recommended.—Gardeners' Chronicle of America.

Above book can be secured through Parrella Dahlia Gardens

**TEN BRIEF SUGGESTIONS TO THE AMATEUR  
ON HOW TO GROW BETTER DAHLIAS**

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

Dear Mr. Parrella:

I thought you would be interested in a letter which I received from Mr. Holmes in Columbia, Connecticut. "Tuesday, May 17th, I received the Dahlias in perfect condition—not even a leaf broken. They were the best packed plants I ever saw."

Sincerely,

A. D. N.

Salt Lake City, Utah

Gentlemen:

Please send me your latest Dahlia catalogue and price list. F. L. Carmichael of Denver, Colo., has had excellent success with your tubers. I want to duplicate in Salt Lake if possible.

Very truly yours,

Dear Sir:

You ask me to let you know how the Dahlia plants reached me, they came just as fresh as if they had just come out of the ground, in fine shape, better than some plants I got here in Ohio.

Sincerely,

Dear Mr. Parrella:

Knowing how parents like to have good reports of their children, thought I would tell you how Sally Klein grew for us this past season. Plants and blooms were perfect—showed 1 bloom at Kingston, Pa., winning First and Special.

Dear Sir:

You were right about Anne Tooker. Due to the latest frost we probably ever had, it bloomed about October 15. Instead of growing tall it grew bushy and to four laterals, without being pinched. I put a little Vigoro in the hole at time of planting and spread a little more around the plant in early August and that's all the feeding I gave it. In other words I don't force my plants. Actually the bloom was 11 by 7 but it was so deep and full and such a true giant dahlia that only one word describes it for size and that's enormous. In short it was the most enormous and magnificent dahlia I have yet grown and probably seen. I have had many top-notch dahlias but this one just sort of gets up and walks away from the others.

Dear Mr. Parrella:

Thank you for letting me have those Dahlia seeds. I had perfectly wonderful Dahlias unlike any I have ever seen.

Dear Mr. Parrella:

Dear Mr. Parrella:

I am writing this letter for two reasons, the first is to tell you how well the plants I purchased from you performed, especially Kimitage and the too beautiful "Caroline Kernochan."

I would also like to know if you could possibly tell me where I could obtain seeds of a variety that I am particularly fond of, St. Therese. I have always admired your dahlias.

Yours truly,

Dear Sir:

September rains turned what looked like one of the worst seasons into one of the best. I managed to keep all my plants in good condition throughout the drought and when the rains came the results were excellent. I brought an eleven inch Ogden Reid and a twelve inch Lynn Fontanne into the bank where I work and caused quite a stir.

In spite of the fact that you were out of the Dahlia seeds, Freckles, etc. — seeds or no seeds, I do not feel that you owe me any refund after the wonderful shipment I received on May 12th. (I planted them the same day, and each one is up and doing fine.) Please find enclosed \$15.00 for which I would like . . .

Having had good Decor. Type Dahlia seed from you in the past I'm writing to ask if you can supply (1) Colarette and/or Orchid Flowering type seeds.

I had several outstanding seedlings of both types but lost the roots by being away too long last winter.

Thanking you for your prompt attention.

Dear Mr. Parrella:

This will interest you.

I entered my first Dahlia show against stiff opposition, on a one hour's notice! I rushed around among neighbors, collecting vases. One hour later I took my dahlias to the Inglewood Dahlia Show and entered four single blooms in the Amateur Division, and with my "Greater Glory" I drew a SPECIAL AWARD ribbon, — higher in points than 1st prize!! This award was gained through TRUENESS of bloom. Needless to say, I bought the tuber from you this year.
